

# EMORY ROYBAL CENTER FOR DEMENTIA CAREGIVING MASTERY

## Employing Design Thinking Methods to Create a Behavioral Intervention Prioritizing African American Caregivers

### A 3- Part Webinar

Join us as Dr. Leila Aflatoony, Assistant Professor in the College of Design at Georgia Tech collaborates with a group of African American Dementia Family Caregivers to establish a research agenda tailored to their caregiving situations

These Webinars are especially intended for investigators considering submitting a letter of intent proposing Roybal Center pilot projects ([RFA and LOI Form](#)) but are open to all who are interested in learning more about Design Thinking.

#### Webinar Agenda

<b>Monday, October 25</b> <i>12:30p-2p Eastern</i>	<b>Divergent Thinking</b>	<ul style="list-style-type: none"><li>• Mapping the end-user's understanding of the problem territory</li></ul>
<b>Monday, November 1</b> <i>12:30p-2p Eastern</i>	<b>Convergent Thinking</b>	<ul style="list-style-type: none"><li>• Finding agreement about key problems and identifying possible solutions</li></ul>
<b>Monday, November 8</b> <i>12:30p-2p Eastern</i>	<b>Design Synthesis</b>	<ul style="list-style-type: none"><li>• Brainstorming fruitful directions for intervention research</li></ul>

The Emory Roybal Center for Dementia Caregiving Mastery supports Stage 1 pilot behavioral intervention projects aimed at enhancing situation specific caregiving mastery.
